Dear Sir:

AMENDMENT & RESPONSE

Please cancel claim 3 and amend other of the claims as shown in the attached
Appendix A. A clean copy of all pending claims is reproduced below which
incorporates all of the amendments:

1. (AMENDED) A method of fabricating a chemical array using:
- a head system with multiple groups of drop dispensers which move in unison, wherein each group comprises a series of drop dispensers within the group loaded with a same fluid;
 - a transport system to move the head system with respect to a substrate with different dispensers in the series of each group following respective paths;
 - a processor to dispense droplets from dispensers in a pattern along a selected path for each group during operation of the transport system, so as to form the array;
- the method comprising:
- a) identifying an error in one or more dispensers;
 - b) when a dispenser of the series within a first group is in error, then moving a second dispenser of the series of each group along the selected path for its group
